To The Secretary to the Government of Madras,
Law Education Department.

Sir,

I have the honour to submit herewith plans and estimates for the construction of a new buildings, latrines and urinal for the Municipal High School, Kospet, and to state as follows.

2. The present school buildings is situated in a small plot of ground inadequate for the purpose of extensions. The buildings is reported to be poor, insufficient and unsuitable. In the year 1925 the Chairman, Municipal Council, applied for a provincial subsidy towards the construction of an additional laboratory block at a cost of Rs.4,000, but Government refused to grant any subsidy therefor- vide G.C.No. 2058 Law Education dated 3- 12- 25. The present

present accommodation continues to be quite inadequate and the construction of a pucca new building is highly desirable.

The Chairman forwarded in December 1925 an estimate at a cost of Rs.90,000 for constructing a new school building and requested the payment from provincial funds 75 percent of the estimated cost. The estimate was subsequently revised to Rs.52000 as the first estimate was considered exhorbitant. The revised estimate includes the acquisition of a site 6 acres 55 cents at a cost of Rs.1000/- and provision for sanitary arrangements such as latrines urinal besides a main building for the school as showin in the margin. The site selected for the new building has been approved by the site committe The proposed main building is almost in accordance with the type design issued in G.O.No.

The building occupied by the Municipal High School was a Taluk Kutcheri before it was lent to the municipality for educational purposes. The council, intends it is reported, applying to Government to permit the existing building to be used for the council's office purposes. Please see copy of Chairman's letter 397/25 dated 17-12-26.

The plans and estimates have been scrutinized by the Deputy Consulting Architect to Government The estimate provides wholly for teakwood at 8/12 per c.ft. The Deputy Consulting Architect states that it would suffice to have teak for trusses alone and have the rest of the wood work of Nallimaddi or Karimarudu which is stronger than teak and cheaper. The estimate for Rs.1900 for the latrines and urinal is also recommended by him for approval. Thus, effecting the necessary alterations in quantities and rates, the amount of the estimate for the main building is reduced from Rs.49000 to Rs.46100. To this should be added, the cost of latrines and urinals, acquisition of land, and making a well, as shown below:-

Sir,

I have the honour to forward herewith a copy of Council's resolution No. 169 dated 11-11-29 and to request the Government to kindly sanction a free grant of Rs 49,000/- for School building as the finance of the Municipality do not at present admit any scope for meeting any share of the expenditure nor can they be in a position to repay the loan if taken. The resources are all slender. There are no sources from which income can be derived. The financial position of the Council is well known to the Government. And the Government is also well aware of the fact that the High School is now located in the old Taluk Office building which is pronounced to be quite unsuited for the purpose of a High School. Besides the Town is growing rapidl

and the strength of the School is proportionately on the increase
sufficient
Hence want of accomodation is keenly felt by the teachers and stu
dents alike.

Construction of building for the Municipal High School, Hospet - Letter from the Chairman Ref. C.R. no. 397/25 & 22.4.29

The C.M.C, Hospet, is informed that the Govt are unable to entertain ~~the~~ the Council's request for a grant equal to the entire cost of the above work. The question of paying a half grant is under consideration in connection with the Budget estimates for

Subject. Subsidy for the Construction of a new building for the Municipal High School, Hospet.

As the D.P.I. submits plans and estimates for the construction of a new building, latrines and urinal for the Municipal high school, Hospet. The total cost of the scheme as revised by the Dy. Consulting Architect amounts to Rs. 49,655. The Director recommends the payment of a subsidy of one half of the cost, Rs 24,827, for the work. Subsidies for secondary school buildings are given with reference to the financial position of the local bodies concerned. L.S.G. may be requested to advise whether a half grant may be sanctioned

The Accounts of the mld for 1927-28 have not yet been received. The budget estima of the cl for 1928-29 is expected to close with a balance of Rs 3123 against the prescribed minimum balance of Rs 3310. The ~~remarks financial position of the municipality do not indicate that the closing balance of cash is likely to be drawn outside authorised overdraft limit, it is therefore clear that the present~~ ml cl cannot meet the entire expen~~diture~~ of Rs 49655 on the above scheme from its closing balance

2. The ordinary surplus or deficit of cl for four years ending with 1928-29 shown below:-

year.		Surplus or def Rs.

Cno. 77B] From the C.M.C, Hospet. C.R. 397/25 dt. 22.11.29

The Municipal Council, Hospet, agreed to meet one half of the cost (Rs. 24,827) of the building from its own funds. It applied to Govt. for a loan of the amount to enable it to meet its share. The Council was informed (~~by Govt~~) in G.O. 4835 Local dt. 26.10.29 that its financial position did not warrant the provision in the next year's budget of the loan asked for and that it might renew the application again next year. The Council ~~Hospet~~ requests now that a subsidy to cover the entire cost of the work may be sanctioned from Provincial funds. The D.P.I does not support this
